

Paintbrush Diplomacy

Theme 2011

Trees Speak Around the World!

- If trees had voices, what would they say?
- If trees had eyes, what would they see?
- Are trees like us, more similar or different?
- If you were a tree, how would you picture your life? What would your branches reach for? Where are you rooted? What would you need to be happy?

Help give trees a voice by sharing your drawings and stories about the trees in your part of the world.

The United Nations General Assembly Declared 2011 the *International Year of Forests*

Forests provide shelter to people and habitat to biodiversity; are a source of food, medicine and clean water; and play a vital role in maintaining a stable global climate and environment. All of these elements taken together reinforce the message that forests are vital to the survival and well being of people everywhere, all 7 billion of us.
